- Protected against abrasion
- Info at a glance: easy to
understand pictograms showing
the correct donning procedure

Traction grip area
- Slip-proof surfaces for safe
handling - even with gloves

Mouth piece with nose-clip
- Small in size, easy to don
- Provides very low
leakage values

ABEK15 filter
- Multi-gas ABEK15 filter provides reliable protection
against a wide range of toxic industrial gases

Robust housing
- Suitable for daily use in rough work environments

**WE BRING
YOU WHAT
YOU NEED. . . .
OVER 4
CONTINENTS**

OUR H.S.E. PLAN

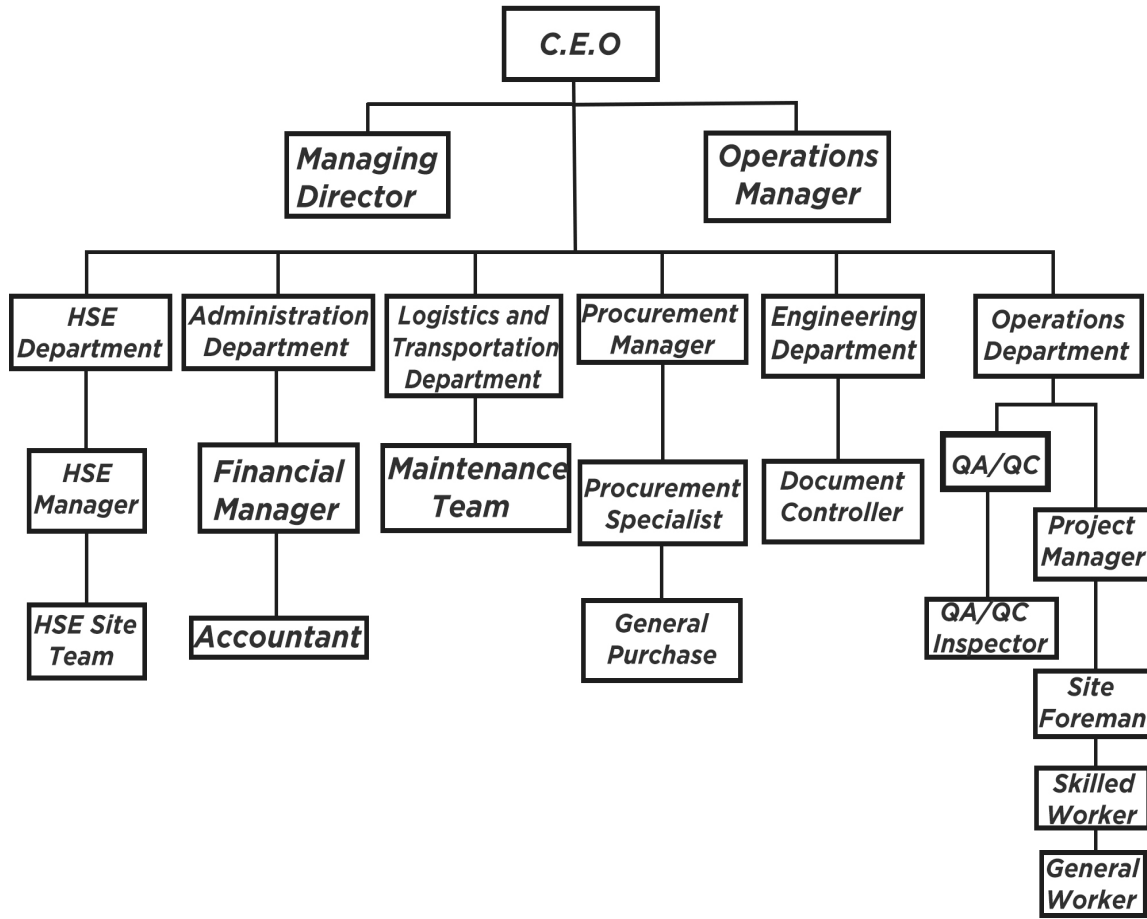

German Rivers has long acknowledged the importance of maintaining a safe and healthy work environment for all personnel and the stewardship required in maintaining an effective and successful program. Our Health, Safety, and Environment (HSE) Plan applies to all on-site personnel and describes the safety and environmental standards, which govern the work performed on our projects. Full compliance with our HSE Plan and applicable safety and environmental laws and regulations are the minimum acceptable standards on Interior Heart and Surgical Center Project. Where there is conflict between our HSE Plan and any regulatory requirement, the more stringent will apply. Our main HSE focal points include but not limited to;

- Comply with all National Laws and regulations and with industries standards.
- Implement proactive and positive attitude of line management in the prevention of accident and respect of the environment.
- Sets measurable HSE Objectives and implement corresponding action plans to achieve a continuous improvement of our performances.
- Always communicate, share experiences on HSE matters with employees, contractors, stakeholders and others affected by our operations.
- All employees and contractors are aware of the HSE policy and responsible to ensure proper respect to all safety and environmental issues and giving it the priority at all times.
- Ensure prevention and control of pollution, reduction of emissions, discharges of waste to minimize our impact on the environment.
- Create a positive HSE culture by actively informing and training personnel and by encouraging improve performances.
- Possible accidental situations are identified, assessed and specific contingency plans are applied.
- HSE Management System is audited at regular interval in order to ensure its continuous improvement and that activities are inspected and monitored.

**WE INSURE THE
SAFETY OF OUR
TEAM, OUR
CUSTOMERS AND
OUR ENVIRONMENT**
